Abmessungen Innenkarton: 383x49x460 mm

### CARE INSTRUCTIONS

This WC seat was manufactured from high-quality, eco-friendly materials with care and precision. If you follow a few simple cleaning instructions, you will enjoy this quality product for a long time. The closed, pore-free surface provides the best conditions for optimal hygiene. Do not use abrasive, chlorine- or acid-based cleaning agents as they may cause discoloration, paint peeling or flash rust on the hinges can. For thorough cleaning, neutral soap or mild, natural household detergents work best. Wipe with a damp cloth after cleaning. Keep the WC seat and lid raised while the flush cycle is active or while stronger cleaning agents are in the bowl. Thank you for your attention and enjoy your new WC seat.
