

concept 200 Urinal Flush Valve

CHARACTERISTICS

- Self-closing urinal flush valve with pre-shut-off
- Push actuation independent of water pressure
- Reduces water consumption (continuously adjustable flush volume)
- Flush volume / flush performance control
- Suitable for all standard urinal bowls
- Cartridge largely maintenance-free
- Vandal-proof all-metal design
- Brass body, chrome-plated
- Incl. flush pipe (16x180mm), connector, rosette (brass chrome-plated)
